Jehovah-Jireh Foundation

Jehovah-Jireh Foundation Progress Letter

October 2026

Greetings in the precious name of our Lord and Savior!

We trust that all is well with you and your family. We thank the Lord daily for His goodness and for each of you who faithfully pray for and support the Jehovah-Jireh Foundation. It is a blessing to see how the Lord continues to provide for His churches and make it possible for this ministry to assist more and more congregations.

The Lord has blessed us with another productive year, and we are thankful for the opportunity to help these churches move forward with their building projects. We rejoice not only in the buildings being constructed and renovated but also in the souls that will be reached with the Gospel through these churches. Only eternity will reveal the full results of what the Lord is accomplishing.

We would like to share the following progress reports from churches that have received grants this year.

Grants Approved July 2026

1. Faith Baptist Church — Maricopa, AZ *Pastor David Zimmerman*

They have one final step to complete in the permitting process! The excavation contractor is ready to begin work on the grading, driveway, sidewalks, and storm drainage. They are looking forward to having the building completed by the end of January 2027. What a blessing that would be! Let's pray that the Lord will allow this to happen. Pictures are from the Groundbreaking service.

2. Flagler County Baptist Church — Flagler Beach, FL *Pastor Larry Hobbs*

They have completed all their projected work. Last Sunday, they had four people come forward for salvation! Baptism is the next step. There seems to be a growing number of people seeking salvation. We praise the Lord for what He is doing in this church!

3. Crosspoint Baptist Church — Iowa City, IA *Pastor Mike Barr*

They are now working on the storm drainage and having the property surveyed. This will prepare them to begin the building process in the spring, when the weather will be more favorable.

4. Greenville Baptist Church — Greenville, OH *Pastor Timothy Pol*

As I prepared this letter, work was being done on the roof. The building is now dry and protected from the weather. They can begin installing a French drain to direct water away from the building, after which they will be able to start the interior work. Things are going well! Let's pray that they can finish the remaining work by springtime.

5. First State Baptist Church — Wilmington, DE *Pastor Sam Knickerbocker*

They are renovating a church building that was gifted to the congregation. They now have a handicap-accessible ramp, a freshly painted building, sanctuary, new carpet, and new lighting. The church family is very excited, and visitors are coming. Please keep them in your prayers.

6. Keystone Baptist Church — Gainbury, PA *Pastor Jared Ballou*

This is an amazing work! They purchased a closed Jewish congregation's building at a tax sale. Since then, other like-minded churches have stepped forward to help Keystone Baptist Church. The building is now approximately 70% renovated, and they believe they can complete the work by mid-November. Best of all, they expect to be debt-free! God is good. Please continue to pray for Keystone Baptist Church.

7. Longview Avenue Baptist Church — Fort Worth, TX *Pastor Brian Fisher*

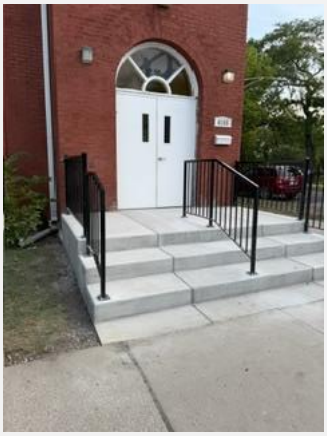

The rough-in work and concrete slab have been completed, and the structure of their 10,000-square-foot building has been erected. They believe the building could be completed by December if the necessary funds continue to come in. Please pray for the Lord's continued provision.

8. Hope Baptist Church / Iglesia Bautista Esperanza — Chicago, IL *Pastor Ricky Torres*

Brother Torres reports that they have painted the sanctuary, repaired the front steps and parking lot, and replaced some of the lighting. People are now beginning to attend the church and accept Christ as their Savior. Three have been baptized in their newly added baptistry! Brother Torres also shared how a man came into the church seeking someone who could show him the Word of God. Someone was able to share the Scriptures with him, and he accepted Christ as his Savior. Glory to the Lord!

Grants Approved January 2026

1. Rose Rock Baptist Church — Noble, OK *Pastor Dustin Isom*

They have cleared the land, graded the property, and received word from the power company that their new electrical service will be installed on October 18. This is a blessing, as the installation of electricity will open the way for the other trades to begin their work. Pray for the inspectors, as they seem to be causing delays with the church by not showing up.

2. Open Door Baptist Church — Fillmore, UT *Pastor Ryan Davis*

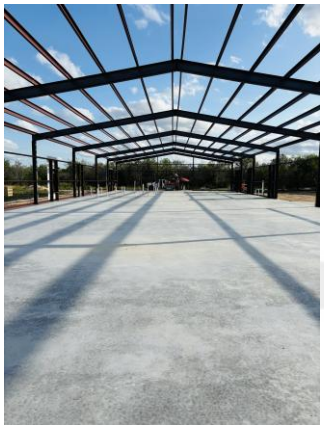

They finally went to settlement in late September, and the building and property now belong to the church! Pray that the Lord will continue to lead them as they seek to grow this work in a very difficult area of Utah.

3. Cornerstone Baptist Church — Hondo, TX *Pastor Russell James*

Progress on this work has slowed somewhat, and their funds are a little tight. Building a church while also working a job is stressful for a pastor and his wife and family. It requires long hours and hard work. Brother James needs our prayers and encouragement! They have already made good progress and are working toward having the building completed by the end of the year. What a blessing it would be if they could hold their Christmas service in the new building! Let's all pray toward that end.

4. Iglesia Bautista Fe — Hot Springs, AR *Pastor Mario Oliva*

Praise the Lord! They will be dedicating their building to the Lord on October 14–15, 2026. The church family has worked very hard and put in many long hours to meet this October date. By God's grace, they have reached this important milestone. To God be the glory!

5. Lighthouse Baptist Church — Washington, NC *Pastor Brian Alphin*

They went to settlement back in March 2026. Since then, they have been having new visitors nearly every week, and the church is growing. Pray that the Lord will continue to work in the hearts of these visitors.

6. South Branch Baptist Church — Petersburg, WV *Pastor Matt Perrine*

They are now working on the ductwork for the HVAC system and completing the electrical and plumbing work inside the walls. After that will come the drywall and painting. Pastor Perrine believes the building should be completed by springtime. Please keep them in your prayers.

7. Gospel Light Baptist Church — Hastings, MI *Pastor Pete Peterman*

They are making great progress on their building project. They tore down their former building and are rebuilding it. Although it took some time to get started, the work is now moving quickly, with the Amish builders making excellent progress. They are working on the interior and expect to be in the new building by Christmas, or perhaps even sooner. Praise the Lord for this encouraging progress!

I thank the Lord for each of you and for your prayers and support of the Jehovah-Jireh Foundation. I continue to be amazed by the greatness of our Lord and Savior and the many unthinkable blessings He showers upon His churches and His saints.

He makes the impossible happen with ease, and we stand amazed. How blessed we are!

Have you ever thought about the number of rewards awaiting us in Heaven? These are the rewards for the works we do in His name after salvation. I believe we will be amazed at how much our heavenly reward account has grown through the prayers and financial assistance of those who have been a part of the Jehovah-Jireh Foundation.

I pray that the Lord will continue to guide and direct our thoughts and actions. Thank You, Jesus!

Pray that our Heavenly Father will continue to direct our every thought and action, and that all we do will bring glory and honor to Him.

You are in our prayers.

His servants,

Bro. James F. Bosse
